

## Sample Article - Online Free Golf Games

There's nothing quite like a good round of golf to relax the mind, blow off some steam and even get some exercise at the same time. Unfortunately, in this day and age, where we all live such busy lifestyles, getting out to the course isn't always possible. First you need to find a few spare hours, book your game at the local golf club (that's assuming that they have space) and then get your golf kit together and get on the road – not always possible, is it? Well, thanks to the greatest invention of the 21<sup>st</sup> century, the internet, you can now play online free golf games!

Thanks to the power of the internet, you can now enjoy a relaxing round of golf from the comfort of your office or study. Imagine kicking it back and enjoying a game of golf with none of the usual implications – no cost, no need to take time off, and no moaning from the lady (or boss!). With the invention of flash and other online graphics technology, playing a free game of golf online is more realistic than you would imagine. You can enjoy the sights and sounds of some of the world's best golf courses without leaving your desk.

The options vary from website to website, with some free online golf games offering everything from “kiddies” golf, to nine and eighteen hole rounds. You can even do some driving practice on some of them, with incredibly realistic response to your mouse movements. If putting about on your own bores you after a while (as I'm sure it will), some free golf games even allow you to enter tournaments. Tournaments can be played either against PC generated players or real life players. You might find yourself teeing off against someone around the world (which can be to your benefit, as they're most likely pretty sleep deprived!), or possibly even one of your work colleagues in the office!

If you're still new to golf, playing online free golf games will be a great way to learn the game of golf. You can easily learn the rules of the game, as well as develop a basic golf strategy that can be used in “real life”. The real benefit of learning the game in cyberspace is that there is no pressure to perform, and you can take your time enjoying the game and learning the intricacies of it all, without some aggravated golfers pushing you forward from the rear!

Playing golf online is great fun, and allows you to simply “break away” from the stresses and strains of everyday life. Although some argue that it's “just not the same” playing free golf online, compared to being on the green, soaking up the sun, playing golf online is still great for just having some fun in an otherwise boring and mundane nine to five work week. Nothing will ever replace the “real life” experience of being on the green, carefully placing that ball, and lining up for your best shot yet, but why not enjoy a free online golf game – after all, it's free!
